

## Code Cracking Fun

The **Caesar cipher**

For this cipher, each letter is shift the same number of places.  
E.g. if A became D, then B would become E etc.

### Keyword Cipher

With this code your key word is written first then the rest of the alphabet carries on in alphabetical order. Write out the alphabet, choose your chosen word and write it underneath, one letter matching one letter.

### Number Codes

Give each letter of the alphabet a number starting with A = 1 ....Z = 26 and write some codes.

### [Morse Code](#)

Learn Morse Code and send some messages using a torch.

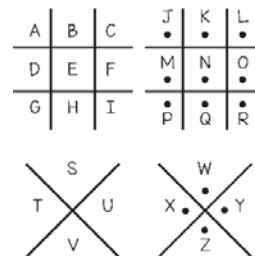

### [Semaphore](#)

Learn Semaphore using your arms as flags and try sending someone some messages.

### Own Codes

Make up some of your own codes and get someone to try and crack them.

### Pigpen Cipher

Use of lines and dots to create codes.
